SALES CONDITIONS

Information

Prices are retail prices expressed in Euro, exc. VAT, inc. packaging.

Deliveries/transport

Goods are transported via carrier or shipper at the buyer's risk. Deliveries are made to the reseller's warehouse or showroom if easily accessible by lorries or articulated trucks. Delivery to specific floors of a building is not available. Other types of delivery must be agreed in advance; the company will let you know the additional costs. Goods cannot be delivered to private addresses.

FOR DELIVERY TO AUSTRIA, BELGIUM, FRANCE, GERMANY, LUXEMBOURG, HOLLAND, IRELAND, PORTUGAL, SPAIN:

Free delivery from Euro 1100 net.

Orders between Euro 600 net and Euro 1100 net, will be charged a delivery fee of Euro 70.

Delivery orders below Euro 600 net, will be processed as ex works.

FOR DELIVERY TO SWITZERLAND :

Free delivery from Euro 1100 Net + Euro 35 export duty + Euro 35 import duty.

Orders between Euro 600 net and Euro 1100 net, will be charged a delivery fee of Euro 70 + Euro 35 export duty + Euro 35 import duty.

Delivery orders below Euro 600 net, will be processed as ex works.

FOR DELIVERY TO GREAT BRITAIN :

Free delivery from Euro 1200 Net + Euro 45 export duty + Euro 85 import duty.

Orders between Euro 600 net and Euro 1200 net, will be charged a delivery fee of Euro 70 + export duty Euro 45 + import duty Euro 85.

Delivery orders below Euro 600 net, will be processed as ex works.

FOR DELIVERY TO NORTHERN IRELAND AND BALEARIC ISLANDS:

Free delivery from Euro 1200 net.

Orders between Euro 700 and Euro 1100 net, will be charged a delivery fee of Euro 90.

Delivery orders below Euro 700 net, will be processed as ex works.

FOR DELIVERY TO CANARY ISLANDS:

Free delivery from Euro 1400 net + Euro 45 export duty.

Orders between Euro 700 and Euro 1400 net, will be charged a delivery fee of Euro 90 + Euro 45 export duty.

Delivery orders below Euro 700 net, will be processed as ex works.

The delivery time stated on the order confirmation is indicative and refers to unloading at the stated address. Delivery on specific dates must be agreed in advance with the company. We cannot accept liability or pay penalties for delays. The recipient is responsible for checking the number of packages and the state of the packaging on delivery and stating any reservations to the shipper or carrier on the transport document. (The shipper or carrier are responsible for defects or faults.)

Payments

To be a valid and effective settlement, payment must be made in full at our office or to third parties authorised by us in writing. Payment must be made by the agreed deadline. If a payment does not complete successfully, then the supplier will be entitled to charge the costs of the protested bill plus interest at the current legal rate and any cash discount. Any non-payment will entitle the seller to suspend production of the ordered goods. The company reserves the right of ownership of the goods until full payment has been received or until the drafts given as a guarantee of full payment for the supply have come through, with the entitlement to duly register a lien thereon. For high-value orders or orders of non-standard products, the payment method will need to be agreed with the company.

Sizes, weights and tolerances

The weights stated are net for individual item; the measurements in cm are indicative. Drawings included in the price list do not constitute detailed definitions of the product. The colours of the materials may vary over time because of exposure to light. Reference colours in the samples or printed in the catalogue or price list are not binding.

For technical reasons due to the nature of the materials used (metal, leather, wood, fabric, etc.), it is not possible to guarantee that colour shades will be identical from one consignment to the next at different times. Where different products are combined or used to complement one another, uniformity is not guaranteed.

For orders of products made of material that is not part of the standard range, the company may assess the feasibility before accepting the order. The customer may supply the material at its own expense directly to Eforma. If material is supplied at the company's expense, then a supplement to the list price will apply according to the quantity requested; Eforma is not responsible for the quality and durability of components made using the customer's material.

Guarantee

The products are guaranteed for 2 years from the invoice date.

The guarantee exclusively covers correct use of the product: scratches, dents, breakages, etc., caused during use of the product are not included.

The guarantee automatically lapses if the product is used improperly. Surfaces may wear even within the guarantee period. The guarantee does not cover components made with the customer's material or parts of products completed or modified later by the customer or by third parties.

Order cancellations

Order cancellations must be sent via fax or email and cannot be accepted more than eight days after the order was placed. Cancellations are not accepted after receipt of Eforma's order confirmation for outside products or products with finishes not included in the company's range. Otherwise, the costs incurred will be charged to the customer.

Complaints

Any complaints must be made via fax or email with photographs within eight days of receiving the goods. Irregularities and differences in tone on wood, hide and leather surfaces are considered not defects but characteristics of the natural material used. Goods that are the subject of a complaint must be returned to the company suitably packed (in the original packaging, where possible). Some finishes are inherently more delicate and subject to wear; therefore, they need to be used with special care and attention. Eforma shall not be liable for damage caused by the user's negligence.

Folds may form in the covering fabric as an inevitable consequence of using the product; this cannot be considered cause for complaint.

Competent court

The sale is governed by Italian law, and the sole competent court for the resolution of any dispute will be the court of Vicenza, Italy.

MAINTENANCE

Wood surfaces

Clean with a soft cloth or sponge moistened with lukewarm water. Neutral detergents diluted with lukewarm water may be used. Never use harsh detergents containing bleach or abrasive products (e.g. bathroom cleaners).

Chrome-plated, anodised or painted surfaces

These can be cleaned with suitable products, such as normal detergents for domestic surfaces diluted with lukewarm water, as long as they are nonabrasive and free of acids and bleach. Avoid using sponges or scouring balls made of metal or synthetic fibre, which will permanently scratch the surfaces. In any event, the products must be thoroughly rinsed to avoid leaving traces of detergent that may tarnish or oxidise the special finish. After washing, dry with a chamois cloth. Avoid using polishes for chrome-plated or painted surfaces: they should be used with due caution and only by trained experts, as the abrasive action may permanently damage the surfaces.

Fabrics

Fabrics can be treated with moistened brushes, possibly using mild detergents or vinegar, highly diluted in either case, or dry-cleaned with suitable products. For optimum maintenance, we recommend that you refer to the ENI-EN-ISO 3758 symbols shown on the specific fabric information sheets.

Leather, hide, cuoietto leather

Do not clean with water, as that will leave rings. Use high-quality leather-cleaning products, carefully following the product manufacturer's instructions. If in doubt, test the cleaning product on a part hidden from view to see the results; allow at least 24 hours for any problems to emerge.

Eco-leather

Can be cleaned with a cloth moistened with lukewarm water.

CUSTOMER'S FABRIC/ SOFT LEATHER

Normally for Cat A, before accepting an order with "customer's fabric or leather" eforma requests a sample to evaluate the feasibility (minimum size 40x40cm). The quoted amounts refer to PLAIN FABRICS with a width of minimum 140 cm. For narrower fabrics it is necessary to request an exact estimate of the required meterage. In the case of a customer's leather the thickness must be between 0.9 mm and 1.2 mm, otherwise please contact the Technical Department.
